Klebsiella pneumoniae
Bacteria; Proteobacteria; gamma subdivision; Enterobacteriaceae;
Klebsiella.
1 (bases 1 to 3233)
Heuel, H., Turgut, S., Schmid, K. and Lengeler, J.W.
Substrate recognition domains as revealed by active hybrids between the D-arabinitol and ribitol transporters; from Klebsiella pneumoniae
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           BCT 16-JUL-1998
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           (rbtK) and ribitol transporter
